

## FOR NEW BANK

**Company of Twenty-five Men  
Organize at Milroy.**

**A Trustee is Appointed for the  
Depositors and They Will  
Receive Their pro  
Rata.**

The financial troubles at Milroy now seem to be in a fair way to be settled within the next few days, as satisfactorily to all parties concerned as it could be under the circumstances.

Twenty-five citizens of Milroy and vicinity have organized a company to be capitalized at \$25,000 and each stockholder will contribute one thousand dollars. Perry Innes has been selected as president of the new bank and G. W. Allison as cashier. Miss Allison, his daughter, retaining her present position as bookkeeper.

W. W. Barton, Thomas E. Bottdorff, T. F. Powell, Frank Moster and W. B. Crane have been selected as the board of directors of the new bank.

This new bank will purchase the building and furniture, safe and the like and start new. The money thus derived will be turned over to C. M. King, who has been selected as a trustee for the depositors. All the money now on hand and the money to be received hereafter that would have belonged to the old bank will go to Mr. King, who will distribute it at times to the depositors pro rata. Forty per cent. of the notes held by Mr. Allison will become due in forty days.

With this arrangement the new bank will begin business in a few days, and it is regarded as a very satisfactory wind-up of what might have been much worse. The depositors will receive possibly 75 per cent. of the money within the next few weeks, and Mr. Allison stated to the Republican today that it was the intention of the new company to apply the earnings of the new bank on the deficiency in the funds going to the depositors until they had received dollar for dollar.

It was with this end in view that Mr. Allison turned over every dollar and all the property he possessed in the world and began life anew. Much admiration for Mr. Allison, who has ever since the present difficulties began, shown his disposition to save the people from loss who had put their trust in him.

It is, of course, plain to every one that Mr. Allison put too much faith in the man Gilman, but in no instance in the examination of his books or in any other way have the people of Milroy found Mr. Allison to be dishonest—the strongest endorsement of him being his retention as cashier by an unanimous vote. The transfer of realty and the satisfying of a mortgage, mention of which has been made herebefore, were made before any of the present difficulties, but were not filed for record until Friday or Saturday.

This adjustment of the matter is not only the best and most sensible way out of the trouble, but retains for the town of Milroy, a bank which that busy little city well needs.

### It Made a Difference.

There is a company manufacturing a family necessity of a very high character. Every druggist in the West has it in stock.

In Iowa a far seeing man opened a small factory and commenced the manufacture of an article for the same use.

The Iowa article did not have half the merit that the Illinois article had, but the Iowa man advertised.

Today he has a business one hundred times greater than the Illinois man, and is growing rapidly, while the business of the Illinois man is gradually decreasing.

No matter how well your article, store or name is known, you must advertise constantly to keep your position.

In this community the Republican visits hundreds of the best homes and at a time of day when advertising is read.

A clam recently taken from Greenwich Bay, Rhode Island, weighed an ounce over two pounds.

## UNCHANGED

**Condition of Earl Kitchen is  
Still Very Serious.**

The condition of Earl Kitchen, who was so badly stabbed Monday night is practically unchanged and is still very critical.

He has been unconscious at times and his body and head are swollen or puffed out and in a terrible condition. He is very nervous when conscious and cannot stand any noise.

Shawning, who is still in jail is very calm, will not say much, but maintains that he was a friend of Kitchen and struck him in self defense.

Mayor Stevens will fix the amount of bond in the morning if conditions of the injured man are favorable.

## MISTREATED

**Greensburg Club Takes Un-  
due Advantage of  
Rushville.**

**Umpire is Easily Won Over and  
Gives Rushville a Raw  
Deal.**

The game at Greensburg was not only a disappointment to the two hundred base ball enthusiasts who went from here to Greensburg, Tuesday, but is a detriment to the game and very materially disgusts many persons with base ball.

The streets were crowded last evening and again today there are little bunches of men gathered in the street and the one subject—base ball, is the matter under discussion.

Nearly all who saw the game and its unsatisfactory ending report it about thus: Greensburg had one run in the second inning, but Rushville had not scored until the sixth, when they made three runs, making the score 3 to 1 in favor of Rushville. In the last half of this inning Greensburg men had two men out and no runs, and while it had scarcely started to shower the third man refused to bat and two players ran out on the field and litterally dragged "Fatty" Kinnett, of Osgood, who had been chosen to umpire, from the diamond.

By the time the matter had been discussed pro and con the rain came down so hard that play could not be resumed. Greensburg claimed the game by 1 to 0, and Rushville claimed the game on account of interference, maintaining that the sixth inning could easily have been finished before the shower prevented play.

After a bit of animated discussion the umpire undertook to compromise (?) the matter by giving the game to Greensburg by a score of 1 to 0, and it was agreed that all bets were declared off and some of the money that was bet was returned, but a large per cent. was not and the stake holders refused to turn it over to the Rushville boys.

This manner of playing base ball is not true sportsmanship. The Greensburg team and their supporters were convinced that they were honestly defeated and resorted to this trick to save a hopeless game.

Kinnett, the umpire, comes in for much unfavorable comment and criticism. He should have ordered the two players off the diamond and ordered the last batter up or forfeited the game.

Instead of that he allowed himself to be taken off the diamond like a child although he weighs 290 pounds or better.

Everyone realizes that an umpire on the spur of a moment is liable to make a mistake, but the matter yesterday was argued pro and con for half an hour and such a blunder by Kinnett is inexcusable.

## A PIONEER DEAD

**Reuben Alexander Passes  
Away at a Ripe Old Age**

**Was One of Rush County's Early  
Settlers—His Life, One of  
Christian Usefulness.**

Reuben Alexander, one of Rush county's early settlers, died last night at 6:45 at his home on West Fifth street, as a result of a fall received last Thursday evening, while preparing to retire for the night.

As stated in the Republican last week, Mr. Alexander in some manner stumbled and fell, striking the floor with his hip, breaking that member near the hip joint. Since that time Mr. Alexander has been steadily declining and his death was almost hourly expected.

The deceased was ninety years, three months and eighteen days old and was born at Elizaville, Fleming county, Kentucky, on March 4th, 1814. He spent his boyhood days at that place until March, 1831, when at the age of seventeen he accompanied his father to Rush county, Ind., then a wilderness, where he with a hired hand set to work to clear a patch of ground so that he might raise a crop of corn for the family to subsist on, when they came in October. His father returned to Kentucky and brought the family this county and Mr. Alexander stayed and assisted his parents in the work of improving the land until August, 1835.

On August 20th of that year he married Selma Caldwell and began wedded life by erecting a log cabin on an eighty acre strip of land, given him by his father and upon which there were no improvements whatever. The couple continued to make that their home until the death of Mrs. Alexander which occurred on January 23d, 1881. Mr. Alexander and part of his family remained on the farm until the 3d of November, 1886, when they moved to this city.

He was the eighth child of a family of fourteen children, seven sons and seven daughters, all of whom lived and married with the exception of one.

To him and his wife were born eleven children, five sons and six daughters, two of whom died while young.

Mr. Alexander joined the Christian church in October, 1885, under the preaching of Rev. Gabriel C. McDuffee, an old pioneer preacher of the old Jerusalem Gospel in Rush county.

Mr. Alexander was well known through out the county and his many friends and acquaintances will bear testimony to his earnest and faithful effort to lead a consistent Christian life till the day of his death. He was an earnest worker in the church and the day was never too cold nor the night too stormy to prevent his attending religious services. He was a loving father, a friend to the poor and needy and was a representative of true American citizenship.

Those who survive him are William H., of this city; George and James Alexander and Mrs. Mary Bartlett, of Indianapolis; Mrs. Sallie Cart and Mrs. Josie Huffman, of Battle Creek, Mich.; Mrs. N. F. Owing, of Indianapolis, and the Misses Nannie and Laura Alexander, of this city.

The funeral will be conducted at St. Paul's M. E. church by Rev. J. W. Conner, of Irvington, tomorrow afternoon at 2 o'clock. The interment will be in East Hill cemetery.

### Thigh Bone Broken.

Louis Lafarr, while trimming trees at Jeff Churchill's on Morgan street, stepped on a dead limb about four o'clock this evening and fell to the ground, breaking one of his thigh bones. The injury is reported as very serious.

### Field Day at Spiceland.

Today is field day at Spiceland academy. The athletic exercises will consist of such events as foot racing, pole vaulting, jumping and various other sports which delight all who enjoy out of door athletics. The main attraction will be a base ball game between Richmond and Spiceland.

## BY STRYCHNINE

**A Former Rush County Man  
Ends His Life,**

**Doctor Lowden, of Indianapolis,  
Suicides Rather than Suffer  
Disgrace.**

Dr. L. A. Lowden, one of the leading physicians of North Indianapolis, and who lived at 936 West 30th street locked himself in his office last night and committed suicide by taking strychnine.

Dr. Lowden was a former Rush county man having been raised in this county and was the son of Rev. A. M. Lowden, now deceased, and whose widow, the mother of Dr. Lowden, now lives at Manilla, this county.

Dr. Lowden was an able physician and had many friends in Rush county.

He was a member of the Masons, Red Men and Woodmen, and has many relatives in this county the nearest being his mother at Manilla, his sister, Mrs. James Bebout, of that place, and Mrs. George Krammes, a sister living a short distance west of this city.

The reason given for this rash deed is that the doctor has been paying his attentions to a Miss Holland, a young woman at Indianapolis, and had been found in his office in company with her by his wife and daughter. The son, Robert Lowden, was sent by his mother to the office to ascertain what the father was doing and found the office locked and upon breaking in found him writhing in pain. A doctor was sent for but could do nothing for the dying man. When his wife heard of the death, she swooned away, and the children gathered around the mother who was revived.

Dr. Lowden graduated from Indiana Medical college twenty years ago, after which he located at Manilla where he had a good practice, but concluded to move to Indianapolis where he had a large practice. He leaves a wife and five children. Recorder Ed Lowden of this city, a cousin, received notice of the death early this morning.

## WILL MEET TONIGHT

**City Council Will Hold Special  
Session to Consider Or-  
dinance**

**Interesting Meeting Last Night  
Office of Street Commis-  
sioner Created.**

The city council met last night at the regular meeting with all present.

Mary Lynah and J. H. Frazee petitioned the council to make their own sidewalks which was granted.

Grand Carr petitioned the council for the privilege of using electric light poles for advertising, offering them ten dollars per year for the privilege.

A petition by Mr. Dawson for the extension of and a petition by a number of citizens for an electric light on Sexton street between Eighth and Ninth streets were referred to the water and light committee.

The petition of Warfield & Wilson and a number of citizens to vacate Julian street where it abuts the power house lot was referred to the city commissioners.

A petition was also filed by a committee of citizens and the I. & C. traction company to vacate the alley from Perkins street, east across the traction ground which was also referred to the city commissioners.

The proposed ordinance for setting back the curb at the corners of Seventh and Morgan streets and Morgan and Third where the I. & C. traction cars turn the corner, so as to allow the sixty foot cars to turn, was introduced, but was not acted upon, the council desiring a better explanation of just what was to be done, and they visited the places today and will take some action on the matter at a special meeting to be held tonight.

The reports of the superintendent of the water and light plant, and city treasurer were received and placed on file.

Mayor Stevens reported that he had tendered George W. Young, ex-city attorney the \$42.77 allowed him by the council and that he had refused the same and demanded full pay.

A report of the clerk showing interest due was received and he was instructed to draw an order to pay the same.

The bond and oath of office of William McBride, the new member of the school board was filed and approved.

The petition of W. S. Campbell, secretary of the school board for an additional fifty dollars salary was left over until the next meeting.

The communication of the St. Paul stone quarry, fixing the price on stone, was received and the committee on streets and alleys was given power to purchase as needed.

The bond of Kelley as contractor of the Ninth street improvement, was received and approved.

The matter of cutting the grass and weeds at the city park was referred to the street commissioner, and the tile was ordered purchased for the Eighth street ditches.

Pat Barrett was discharged as superintendent of streets and elected as street commissioner, and a bond required.

After allowing the usual bills the Council adjourned to hold a special meeting tonight.

### Factory Seeking Location.

Mayor Zimmerman, of Richmond, has received from the Milwaukee Paper Mache Company a letter asking for information in regard to securing a location in this city. The company desires to secure a building already erected and inquires if a suitable building can be obtained. The letter was last night referred to the select committee of council, and the desired information will be given the concern.

### Episcopal Ladies Meeting.

The Ladies Guild of the Episcopal church will meet with Mrs. Charles Brown on East Second street, tomorrow afternoon.

## Blood Hounds at Liberty.

A couple of officers and a brace of blood hounds from Dayton were at Liberty, Indiana, yesterday, where a burglary was committed the night before and put the dogs on the trail of the burglars. The dogs followed it to a point where the thieves were supposed to have boarded a C. H. & D. freight-car and there lost it. Yesterday afternoon the officers took the dogs to the station house where they were given an opportunity of smelling the men arrested on suspicion of being connected with burglary. But the dogs gave no indication of recognizing the scent and the suspects are not believed to be the right parties.

## HOW IT WAS DONE

**Admiral Shrydloff Reports  
on Sinking of Japanese  
Transports**

St. Petersburg, June 22.—Official details of the recent cruise of the Vladivostok squadron clears up some of the conflicting reports of the resultant engagement. Regarding the sinking of the Izumi, the Sado and the Hitachi, Admiral Shrydloff reports: "In spite of repeated orders to stop the Izumi refused to do so until she had been struck by several shells. She then stopped and men began to jump overboard. The Gromobol then signalled for those on board to quit the ship, which was done, the crew leaving in two boats. These, together with those who had jumped overboard and who were picked up by boats from the cruiser, were received on board the Gromobol. The Izumi, which was of 8,000 tons, was then sunk by our guns.

"After the sinking of the transport two more steamers were sighted by the Gromobol, and they were chased. They proved to be the transports Sado and Hitachi, each of 6,000 tons. In the former in addition to military stores, were men of the telegraph corps and twelve officers and also pontoons. On the Hitachi were 1,000 troops besides military stores. The Russia was ordered to capture the Sado and the Gromobol the Hitachi, which tried to escape.

"After several shots had been fired warning the Hitachi to stop, without effect, our guns opened fire and she stopped. Those on board, however, paid no attention to the signal to abandon the ship, and after more shots had been fired they commenced to lower boats. The transport settled down very slowly and consequently the Gromobol was ordered to expedite the sinking of her, which was soon accomplished.

"The Sado stopped after several shots had been fired across her bows, and in accordance with our signals, her boats, which were fairly numerous were lowered. Some of the boats were precipitately lowered and several captured. The Rurik was ordered to pick up the officers, soldiers and crew, but it was only possible to capture four foreigners engaged in the transport and twenty-five officers. The other troops did not leave the transport and the Rurik was then ordered to torpedo and sink her. The transport not sinking at the first torpedo, another was fired, which sank her. Our squadron then, considering the matter ended and in view also of the growing darkness, proceeded on the cruise, a Japanese cruiser watching all the time."

## BASE BALL

Pittsburg is in fourth place and still winning. Cincinnati has a good hold on second.

Such decisions as that of the umpire at Greensburg yesterday does not promote the interest of the game by a long shot.

Louisville won nine straight games before being defeated. They won from Indianapolis again yesterday.

Left-handed pitching is receiving a black eye by the record being made in the American league this year.

Waddell who ranks ahead of all the left-handers, is seventh in the list of pitchers.

The Shelbyville Liberal has armed  
itself with a new double magazine  
Mergenthaler type-setting machine.  
The Liberal is a progressive and up-  
to-date paper.

The same men who a few days ago  
expressed great displeasure because  
Senator Fairbanks would not make  
some kind of declaration relative to  
the vice presidency are now regarding  
his action as longheaded and exactly  
right.

There is no doubt but that Senator  
Fairbanks will be a strong factor in  
the race for president in 1908. The  
day of that foolish "precedent" is  
past and we believe that hereafter a  
vice president will be selected who is  
of presidential calibre, so that the  
party can nominate him for a higher  
place at the end of his term.

We are informed through the col-  
umns of the state papers that the In-  
diana Democrats intend to make polit-  
ical capital out of the appointment of  
Attorney General Knox as United  
States senator to succeed Matthew S.  
Quay. They say his appointment was  
made at the order of the Standard Oil,  
Pennsylvania railroad and other cor-  
porate interests. When Mr. Knox was  
appointed attorney general, the cry  
was raised that President Roosevelt  
had surrendered to the trusts and  
Knox's appointment was dictated by  
them. Now we are told his appoint-  
ment as United States senator, com-  
pelling his resignation as attorney  
general is due to trust influence. If  
Knox was appointed attorney general  
to please the trusts, and he proved  
satisfactory to them in that capacity,  
why should they want to transfer him  
on the eve of some important proceed-  
ings against him? And if he was not  
satisfactory why should they want  
him in the Senate? Inasmuch as it  
would have been hard for the trusts  
to get a man in Pennsylvania who  
would represent them, and it would  
be a matter of great difficulty to get  
Roosevelt to appoint an attorney  
general who would be satisfactory to  
them, we fail to see where Democracy  
is going to make so much capital out  
of Knox's transference. Of course, all  
this precludes the fact that as At-  
torney General Knox has instituted  
more suits against trusts and carried  
more successful termination than  
any attorney general who ever held  
that office, and nobody seriously be-  
lieves he owes anything to the trusts  
or they have any influence over him.

## CAUSE FOR GRATIFICATION

Senator Fairbanks' New Honor Comes  
Without Solicitation.

Indianapolis, June 22.—A gratifying  
feature of the vice presidential situa-  
tion, as the Indiana friends of Senator  
Fairbanks see it, is that the nomina-  
tion comes without any pledges hav-  
ing been made by the senator. Nei-  
ther have pledges entered into the situ-  
ation. It was just a plain case of the  
convention wanting a certain man and  
determined to have him. It was the  
knowledge that this kind of sentiment  
existed that led some of the scheming  
leaders here and there in big states  
to abandon without parley their man-  
euvering for political advantages as a  
result of the nomination. Senator  
Fairbanks is by all odds the most  
sought after man at Chicago according  
to veracious report. Since his nomina-  
tion became a certainty the hotel  
crowds have hovered about the en-  
trance to his room to get a look at  
him and whenever he appears in the  
lobby he is at once the center of every-  
body within range. It is exceedingly  
gratifying to the friends of the senior  
senator from Indiana to see the nomina-  
tion coming to him as a free-will  
offering. Neither he nor his friends  
have turned a hand toward getting the  
nomination after going to the conven-  
tion. A man with less firmness in his  
makeup would probably have been per-  
suaded to say something under the  
circumstances. The most influential  
men in the party went to the senator  
and declared that he need not expect  
any consideration from the convention  
unless he "came out" and said he was  
a candidate. "Such an announcement  
would not be the truth," said the sen-  
ator in answer to these friends. "I  
am not a candidate, and never sought  
the vice presidency. I do not propose  
to seek it."

Unless he refuses to be a candidate,  
it is the belief of leading Prohibition-  
ists that General Nelson A. Miles will  
be nominated for the presidency at the  
Prohibition national convention in In-  
dianapolis next week. Photographs of

the general are being prepared in the  
East for use at the convention, and  
copies are being circulated of the res-  
olution endorsing General Miles, adopted  
at the recent Pennsylvania Prohibition  
state convention.

Dr. J. N. Hurty, secretary of the  
state board of health, cites the latest  
insurance statistics to show that 25  
per cent of the people recovering from  
typhoid are within a few years at-  
tacked by tuberculosis, which dis-  
proves the old theory that after a per-  
son has recovered from typhoid fever  
he is usually in better health than he  
was before he had the disease. The  
statistics also afford another reason  
for the utmost vigilance and effort on  
the part of state and municipal author-  
ities to prevent typhoid. The question  
of the prevention of consumption will  
be discussed more than any other at  
the school for health officers, which  
convenes Thursday and which will be  
conducted by the state board of health.

Word from Chicago declares that  
outside the Chicago coliseum it looks  
more like an Indiana state convention  
than it does like a national convention.  
Whenever a big crowd enters the hotels  
it is safe to estimate that the larger  
part is from Indiana, and there are  
enough members and ex-members of  
the Indiana legislature there to hold  
several sessions of the general assem-  
bly and not have the same men attend  
more than one convention. While  
most of the state headquarters are al-  
most deserted the greater part of the  
time, Indiana's headquarters are al-  
ways crowded, it is said.

The report of the death of State Sen-  
ator James Gray was a great shock  
to his many political friends here.  
While many of them knew of the sen-  
ator's failing health few had any idea  
that his death was so near, and when  
the news spread about the hotels that  
he was dead there was universal regret  
expressed. Senator Gray had a host  
of warm friends and admirers all over  
Indiana, and his work in the last sen-  
ate made him popular not only with  
the politicians, but with the people.

## Accidental Death Is Reported.

Crawfordsville, Ind., June 22.—Cor-  
oner Keegan changed his mind and  
brought in a verdict of accidental  
death in the case of Charles Kahler,  
the Purdue graduate, who was killed  
by a live wire at the sub-station of the  
Northwestern Traction company. The  
friends of Kahler contend that he was  
killed accidentally while endeavoring  
to employ the wires for the production  
of light.

## Dangers of Baseball.

town amateurs and the Indiana Nor-  
mals, George Thomas, catcher for the  
Johnstons, was almost instantly killed  
by being hit over the heart by a  
foul tip.

## SOUND PLATFORM

Republicans In National Con-  
vention Reaffirm Tradi-  
tional Principles.

## SECOND DAY'S DOINGS

A Great Crowd Gathered at the Col-  
iseum Today to Hear Speaker  
Cannon and the Platform.

An Ovation Given Senator Fairbanks  
Whose Nomination Is Now Con-  
ceded.

Chicago, June 22.—The second day's  
session of the Republican national con-  
vention witnessed the reaffirmation of  
the party's traditional policies in a  
platform which for the main part had  
been in hand weeks before it came  
before the resolutions committee for

HON. JOSEPH G. CANNON.

formal ratification. The big feature  
of the day was the address of Per-  
manent Chairman Joseph G. Cannon  
of Illinois, who, as speaker of the  
house of representatives, has taken a  
strong place in the national interest.

The continued lack of public inter-  
est in the convention was evidenced  
by the large number of spectators' seats  
vacant. Seats at former Republi-  
can conventions usually brought a pre-  
mium. Today spectators offered  
them, but there were few takers, and  
as the hour approached for the con-  
vention to assemble they sold them  
for a song. The wilderness of vacant  
seats was in the gallery and on the  
mezzanine floor, where not more than  
two-thirds of the chairs were occupied.  
The first floor was well filled.

Without a disturbing element to im-  
pede smooth operation, the day's pro-  
gram was carried out like clockwork.  
Not a jarring sound was heard, not a  
false step taken. It was an assembly  
of non-combative delegates which car-  
ried into effect, without the thunder-  
ous demonstration usually attendant  
upon political conventions, a purpose  
that had been clearly defined. An or-  
ganization was perfected at the first  
day's session preparatory to the adop-  
tion of a platform and the making of  
nominations in the succeeding days of  
the convention, and the adoption of  
the platform was perfunctory. From  
the quiet yet unmistakable enthusiasm  
provoked by Senator Fairbanks' arrival  
at the Coliseum, his nomination for  
vice president is but little less assured  
than the nomination of Theodore  
Roosevelt for president.

Today's session was opened with  
prayer by Rev. Thomas E. Cox. The  
report of the committee on resolutions  
was then presented by Senator Henry  
C. Lodge and adopted. The party's  
platform includes a plank strongly  
commending the established Republi-  
can policy on the tariff and presents  
in terse language the necessity for  
maintaining the protective policy in  
the interest of American labor and  
American industries. Added to this is  
a declaration committing the party to  
a readjustment of the schedules if  
found to be desirable in the future.  
There is also a mild declaration on  
the subject of reciprocity and a pronoun-  
cement against trusts, but with a reser-  
vation in the interest of "established,  
legitimate industries." In this con-  
nection it congratulates the party upon  
the legislation on the trust question  
which has been secured since Mr.  
Roosevelt became president. There  
are also planks dealing with the Isth-  
mian canal and the policy of the  
United States toward Cuba, upon  
which the Republican party is felici-  
tated. It also contains a declaration  
in favor of encouraging American  
shipping.

The tariff plank declares for the  
"cardinal principles of protection" and  
further that the rate of duty should be  
the difference between the cost of pro-  
duction in the United States and  
abroad. The rates of duty should be  
readjusted "only when conditions have  
so changed that the public interest de-  
mands it. All such changes should be  
made by the Republican party."

The report of the committee on per-  
manent organization was then heard  
and Permanent Chairman Cannon was  
escorted to the chair. His address  
received the closest attention through-  
out and was liberally punctuated with  
applause.

Chairman Cannon introduced his ad-  
dress with the statement that "the Re-  
publican party was born with the de-  
claration that slavery was sectional or  
local, and that freedom was national

It has ever been a national party, its  
policies benefiting every section and  
every man in the republic. It made its  
first successful contest for power in  
1860 with Abraham Lincoln as its  
standard bearer. Secession followed.  
The war for the maintenance of the  
Union was waged for four years, and  
such a contest of arms the world had  
never seen before and perhaps never  
will see again. In the end slavery was  
abolished and freedom became uni-  
versal within the borders of the re-  
public. With a bankrupt treasury and  
bankrupt credit, the party under the  
lead of Lincoln, went back to the pol-  
icy of Washington and wrote upon the  
statute books the revenue laws im-  
posing duties on imports that would  
produce revenue and at the same time  
protect every citizen of the United  
States in diversifying the industries  
of the republic. It was a contest for  
free men and for free labor everywhere  
within our borders. The policy of pro-  
tection has been the shibboleth of the  
Republican party from that day to this.  
Under this policy, from an insignifi-  
cant manufacturing country in 1860,  
by leaps and bounds, while we still  
remained first in agriculture among  
the nations of the earth, we have be-  
come more than first in manufactures.  
More than one-third of all the manu-  
factured products of the whole earth  
is produced by American capital, by  
American labor, which works shorter  
hours than any people on earth, and  
has more steady employment than any  
people on earth, and on the average  
receives, conservatively stated, one  
and three-fourths dollars compensation  
where similar labor elsewhere receives  
but one dollar.

"We enter the coming campaign  
with the record of the Republican party,  
under the leadership of Theodore  
Roosevelt, feeling that we have made  
progress and marked progress along  
the line of law and order, contempor-  
ary with the development of our ma-  
terial interests. In addition to this,  
and as a further illustration of the con-  
dition of the country, let me call your  
attention to the fact that the people  
of the United States now have far  
greater wealth than the people of any  
other country on earth. Capital is  
abundant; interest rates are decreas-  
ing and capital seeks investment. And  
while the law prohibits unlawful com-  
binations, great blocks of competitive  
private capital have been and are be-  
ing invested in all the industries of the  
country. It can easily be foreseen  
that when a legitimate plant comes  
into competition with a plant that is  
capitalized for two or three times its  
value, the over-capitalized plant will  
go to the wall. It is an open secret  
that within the last two years the  
shrinkage from over-capitalization has  
been many, many hundreds of millions  
of dollars. The property is all there  
now, as it was two years ago; but the  
wind and the water and the gas have  
disappeared, greatly to the advantage  
of the people of the country. And yet  
on the average, I say again, our people  
are better employed and at a better  
wage, and have been for the last  
twelve months, than ever before. And  
notwithstanding this great shrinkage  
of fictitious values, the millions of peo-  
ple throughout the country who live  
in the sweat of their faces, do not  
know thereof and are not affected  
thereby.

"Let us make our nominations in  
order and appeal to the people of the  
country for a renewal of power to the  
Republican party, standing by our pol-  
icies, ready to legislate where legis-  
lation would be productive of more  
good than evil from the economic  
standpoint, but refusing to legislate  
and lose the substance of success in a  
vain effort to secure the shadow that  
abideth not, and satisfieth neither the  
intellectual nor material exist-  
ence."

Following the chairman's address  
the report of the committee on rules  
was adopted and the naming by state  
delegations of the members of the new  
national committee was ratified. The  
new committee is as follows: Ala-  
bama, Charles H. Scott; California,  
George A. Knight; Connecticut, Chas.  
F. Brooks; Delaware, J. Edward Ad-  
dicks; Florida, J. N. Coombs; Georgia,  
Judson W. Lyons; Idaho, Weldon B.  
Heyburn; Illinois, Frank O. Lowden;  
Indiana, Harry S. New; Iowa, Ernest  
E. Hart; Kansas, David W. Mulvane;  
Kentucky, John W. Yerkes; Maine,  
John F. Hill; Massachusetts, W. Mur-  
ray Crane; Michigan, John W. Blod-  
gett; Minnesota, Frank B. Kellogg;  
Mississippi, L. B. Moseley; Missouri,  
Thomas J. Aikens; Montana, John B.  
Waite; Nebraska, Charles H. Morrill;  
Nevada, P. L. Flanigan; New Hamp-  
shire, Frank T. Streeter; New Jersey,  
Franklin Murphy; New York, William  
L. Ward; North Dakota, Alexander  
McKenzie; Ohio, Myrta T. Herrick;  
Oregon, Charles H. Carey; South Da-  
kota, J. M. Greene; Tennessee, W. P.  
Brownlow; Texas, Cecil A. Lyons;  
Utah, C. E. Loose; Virginia, G. E.  
Bowden; Washington, Levi Ankeny;  
West Virginia, N. B. Scott; Wisconsin,  
Henry C. Payne; Wyoming, George E.  
Paxton; Alaska, John S. Held; Indian  
Territory, P. L. Soper; New Mexico,  
Solomon Luna; Oklahoma, C. M. Cade;  
Hawaii, Alexander G. M. Robertson.

The Fairbanks boom for the vice  
presidency flourished unrestricted dur-  
ing the convention proceedings. Its  
impetus was gained when the Indiana  
delegation entered the Coliseum and,  
led by the two senators, Mr. Fair-  
banks and Mr. Beveridge, proceeded  
down the aisle to their seats near the  
stage. The ovation given Senator  
Fairbanks was greater than was re-  
ceived by any of his distinguished col-  
leagues. The proceedings afforded no  
opportunity for the advancement of  
other candidacies. No mention was  
made of the names of favorite sons  
whose ambitions are not taken seri-  
ously beyond the boundaries of their own  
states. The applause for Senator Fair-  
banks appeared to be general.

## STATE NEWS

Liberty, Ind., June 22.—Several business houses were forcibly entered here and goods of different values were taken. About midnight, while a member of the gang was prowling in the vicinity of the postoffice, the postmaster shot at him. This aroused everybody in the vicinity, and the robbers decamped. Telegrams were sent in every direction looking to the capture of the gang, who were known to be strangers, and a dispatch was received from Hamilton, Ohio, saying that J. W. Doney, Alexander Chapman, Frank Simpson and John Gore, found beating their way on a C. & D. freight train, had been arrested by the police authorities. Before notice of this arrest had been received the sheriff telegraphed for bloodhounds, and Dayton, Ohio, responded. A determined effort will be made to arrest the housebreakers operating in this city and vicinity.

### WEEKLY CROP BULLETIN

Summary for Indiana for the Week Ending Monday, June 20.

Indianapolis, June 22.—The daily mean temperature during the last week was with one exception below the normal every day, and for the week averaged 3 deg. below. Light to copious showers fell generally on Wednesday and Thursday and again on Saturday night and Sunday. Fair and for the most part sunny weather prevailed during the intervening period.

Owing to the continued low night temperatures corn is making slow growth, but with few exceptions maintains a healthy color. Early planted corn has been cultivated once or twice and is generally clean; but the late planted is too small to cultivate and is becoming foul. Oats are doing well, but in the south section are beginning to head on short straw. The condition of wheat has improved slightly, but with the exception of that in a few localities the prospects for anything like a fair crop are not good.

Old clover is weedy and unpromising. Young clover, timothy and other hay and pasture grasses continue in good condition. A good crop of alfalfa has been secured in Dearborn county, and clover haymaking is under way in several localities in the south section. Tomatoes, sugar corn, potatoes and truck gardens are doing well. Apple trees and pear trees are suffering from blight, and the fruit is falling badly in many localities. Other fruit, except peaches, promising.

### Surprised the Court.

Kokomo, Ind., June 22.—John Bowen, charged with dynamiting the home of Aaron Shock in the country west of here last September, surprised the court by entering the plea of guilty and taking the minimum penalty for arson, one year's imprisonment. He admitted that he assisted Samuel Michaels in destroying the Shock home, and that he was paid for his services. Michaels, who is sixty-five years old, is serving a term in the Michigan city prison for the part he played in the crime.

### Victim May Not Recover.

Anderson, Ind., June 22.—William H. Bolt of Lapel is under bond on charge of attempting to murder Noah C. Branson, timber buyer and box manufacturer at Lapel. It is alleged that Bolt struck Branson because he thought that Branson had complained to the town marshal in effect that Bolt had smuggled several cases of beer into the town. Branson is allied with the temperance element. He is between fifty and sixty years old, and it is feared that he cannot recover.

### Holding Secret Sessions.

Warsaw, Ind., June 22.—The Young People's Missionary Movement of the United States is holding a ten days' meeting at Winona lake, with headquarters at the Winona hotel. About one hundred persons, thoroughly interested in the missionary work, are in attendance, and the meetings are growing in interest. All of the meetings are for members of the organization only, and no outsiders are permitted to attend. The delegates refuse to discuss the meetings.

### Notified the Sheriff.

Fort Wayne, Ind., June 22.—Henry Starks, a Toledo boy who pushed Richard Harris, a negro boy, into the Maumee river at Toledo Sunday, where he drowned, is at Abolite station, in this county, and he has telephoned Sheriff Stout to come and take charge of him.

### Uses Track as Playground.

Fort Wayne, Ind., June 22.—While at play on the tracks of the Nickel Plate railroad in the eastern part of this city last night, little William Keuter, eight years old, was struck by a passenger train and fatally injured.

### Will Make It Unanimous.

Chicago, June 22.—The Indiana delegation made a tour of the different state delegations last night and created considerable interest, although no direct attempt was made to boom the nomination of Senator Fairbanks for vice president. There is a practically unanimous belief that the Indiana senator is to be chosen, although there are no new developments in the situation today. There has been some communication with Representative Hitt and he has been informed of the situation. It is expected he will authorize the withdrawal of his name, in which event the other candidates will also be withdrawn and the nomination of Senator Fairbanks be made unanimous.

## The Greed of Great Britain

By ANDREW CARNEGIE

Y aim is to show Englishmen how absurdly grasping they are—how unreasonable. Never has the world seen such a nation and there is much excuse for the feeling that Britain is entitled to continue to inherit the earth. She still wants more when what surprises every one conversant with her position is HOW SHE EVER SUCCEEDED IN GETTING AND DOING SO MUCH. I am impressed every time I look into the figures.

Mark ye, our foreign commerce is ONLY £903,363,000 per year. Ungrateful favorite of the gods! It never was so great either in imports or exports. No nation ever approached it in amount. Per capita it is £21 10s. France has only £8 11s. 9d.; Germany, £8 6s. 8d.; United States, £6 3s.

Insatiate greed! It never was so great and is constantly increasing. ALL THE OTHER NATIONS COMBINED HAVE NOT AS MUCH. Beware lest thine ingratitude offend the gods. Think not that one nation can long continue to possess more than all others. Thy fleets shall increase, though thy world's share may fall as new nations grow. Thou wert first; now others build ships and must share with thee.

Our national wealth is ONLY £11,806,000,000. To none of thy sister nations has so much been given per capita, and to none, even to the largest, such sum in the aggregate. Only the American Union, forty-five nations combined, exceeds thy hoard, but even it—thy child beloved of the gods—HAS MUCH LESS PER CAPITA.

ONLY 9,000,000 tons of iron and ONLY 5,000,000 tons of steel do we now produce per year. Even our product of coal (230,000,000 tons) is no longer greatest of all.

This is the highest product of iron and steel thou hast ever reached, greater per capita than Germany both of iron and steel. Not even the giant United States equals thy iron product per capita. Hear thou the counsel of the friendly gods. Until a new supply of iron ore be discovered, draw not upon thy present store one ton more per year. Thy consumption per man is greatest of all.

Our people number only 42,000,000 and increase slowly. Russia has 120,000,000 and increases apace. Germany has increased until she has one-third more than we, and her yearly rate of increase is nearly double. America has double our number and has increased in the last three years more than 2,000,000 yearly. Our increase is not 400,000. We dwindle in comparison. Consider the lessening stamina of thy sons, the numbers rejected as unfit for military service, the millions upon the brink of starvation. The gods in their mercy deny thy prayer for much denser population. This must not be. MUCH INCREASE OF POPULATION WOULD DRAG THE STANDARD STILL FURTHER DOWN.

NOT TO ALL THE LEADING COUNTRIES COMBINED HAVE SO MANY BEEN GIVEN. WHAT WILL SATISFY THEE, SPOILED DARING OF THE GODS? BEWARE THOU TEMPEST THEM NOT TO WITHDRAW THEIR FAVOR. NOT EVEN THE AMERICAN UNION HAS HALF AS MANY SPINDLES, THOUGH DOUBLE IN POPULATION. HEAR THIS AND PAUSE.

In recent years what thy brimming cups could not hold has necessarily been bestowed upon other lands. What they get lessens not thy store; far otherwise—THOU SHAREST THEIR PROSPERITY. To thee the gods have placed under tribute the nations of the earth; none escapes. Rejoice, therefore, in the rapid advancement of the world, for upon this thine own undiminished prosperity depends. Thou must decline if the world prospers not. CEASE TO BE AS CHILDREN CRYING FOR THE MOON.

Thinkest thou the friendly gods have not foreseen this and ordered all for Britain's safety? Consider war, with the combination of powers which drove Japan from her spoil—France, Germany and Russia. Where, then, would be thy food supply if dependent upon thine own empire, every ton of it subject to capture upon the seas? How different thy position with the republic demanding that her flag be respected and food not contraband of war, every ton of thy needed food protected, or the republic thine ally! Think of all this and render thanks to the gods for their prevision.

THIS FOR YOUR OWN EAR: THE GODS HAVE MADE IT IMPOSSIBLE THAT THERE CAN EVER BE WAR BETWEEN THEE AND THY CHILD ACROSS THE SEA—SIMPLY IMPOSSIBLE.

If ever there could be war, which the gods have made impossible, food for thee from Canada would never reach Canadian seaports. Dismiss from thy thoughts such phantoms and chimeras dire; never again are English speaking men to stand face to face in battle. When they fight it will be SIDE BY SIDE for noble causes. Thus have the gods decreed. Know this, therefore—the best and safest position possible for thee, dependent as thou art and must remain for food from across the sea to feed thy people, is that thou be not dependent for thy chief supply upon thy colonies, thy food subject to capture, but upon the independent republic of THINE OWN RACE.

### AN AWFUL TOTAL

List of Victims of the Slocum Disaster Is Daily Growing.

New York, June 22.—By the use of dynamite and heavy guns fired by men from the Second battery, scores of bodies of the victims of the Slocum disaster have been brought up from the bottom around the shores near North Brother Island. From sunrise to sunset yesterday the searchers along the beach and in boats gathered in 112, bringing the number of bodies recovered to date up to the appalling total of 845. Of these 700 have been identified, and the missing still are approximated at something more than 200. Many of the bodies last found never will be identified because of the changes that have taken place during the week they have been under the

### water.

Evidence of a startling nature, which doubtless will have an important bearing on the ultimate result of the coroner's inquiry into the General Slocum disaster, was forthcoming at the inquest. Perhaps the most unexpected incident was the continued refusal to answer questions of Henry Lundberg, a United States steamboat inspector, who was supposed to have inspected the life-preservers and the hull of the ill-fated steamer. His refusal was based on the ground that an answer might tend to incriminate him, and he acted on the advice of his counsel. The coroner committed Lundberg to the house of detention, but later accepted \$500 bail for his further appearance.

### BEST HOTEL IN ST. LOUIS—

THE INSIDE INN,  
WORLD'S FAIR GROUNDS

Affords Superb Accommodations  
and the Greatest Convenience  
for Visitors

Nothing finer in the way of hotel accommodations at any world's fair has ever been seen than The Inside Inn at St. Louis. It is situated right inside the World's Fair grounds and stands upon eminence 200 feet above the level of the city. It is three stories high, 400 feet wide, 800 feet long, has 2,257 bedrooms and contains a dining-hall with a seating capacity of 2,500 people for every meal. Every modern convenience usually found in the highest class hotels has been installed in the Inside Inn. Rates range from \$1.50 to \$5.50 per day, European plan and from \$3.00 to \$7.00 American plan, including admission in all cases. Rooms on suit with bath can be enjoyed at the higher rates. Range of price is governed solely by the size and location of rooms, all having equal dining-room privileges.

The hotel is under the personal management of Mr. E. M. Statler, the well-known caterer of Buffalo, and this is of itself a guarantee that the cuisine and service will be of the very highest order. The enormous capacity of The Inside Inn assures good accommodations for all—no matter when or in what numbers they come—but those who prefer to secure their rooms in advance can make reservations now for any period during the life of the Fair.

Letters should be addressed, The Inside Inn, Administration Bldg., World's Fair Grounds, St. Louis.

## "BEAUTIFUL WINONA."

## Excursions via Pennsylvania Lines to that Pretty Resort.

With the opening of the season at Winona Lake, May 16th, the sale of excursion tickets over the Pennsylvania Lines to that attractive resort in Northern Indiana will begin. Every summer passed there by thousands has only increased their desire to return. On the golf links, the tennis court, the baseball or cricket grounds, the croquet field, or boating on the lake, fishing, camping, swimming, driving, or attending recitals and lectures by world-famed personages in the auditorium—Whatever the diversion may be, the associations are of that congenial sort conferred by good society. This resort is noted as the site of Winona Assembly and Summer School, also training teachers and students from educational institutions of this and other countries.

Fifteen-day and season excursion tickets will be sold from ticket stations on the Pennsylvania Lines during the summer. For information about fares and time of trains, apply to local ticket agents, or to F. VAN DUSEN, Chief Assistant General Passenger Agent, Pittsburgh, Pa. Illustrated literature describing attractions of Winona Lake may be had for the asking. Address S. C. DICKER, Secretary and General Agent, Winona Lake, Ind., who will give particulars regarding camping facilities, hotel accommodations, program of addresses by noted speakers and other details.

locals "in this first Sunday game. Short Bull, who caught for the Nebraska Indians will do the slab work behind the bat."

Contractor Walker is at Indianapolis today to select an iron stairway to be erected on the west end of the Poundstone building and leading up into the lodge hall.

The "W. R. C. met at the court house this afternoon at their regular meeting and to hear the report of Mrs. R. F. Conover, who represented this corps at the State Encampment at Warsaw.

Chase Pearsey, fireman on the L. E. & W., is enjoying a week's lay-off and is at his home. Pearsey is playing with the base ball team this week, and played first base against Greensburg yesterday.

The Rushville Commandery Knights Templar will have work tonight at their hall in the illustrious Order of the Red Cross. A banquet will be spread and the following toasts will be given: Greeting, Sir Knight Virgil W. Tevis; Blue Lodge, E. Sir Earl H. Payne; Chapter and Council, Sir Knight William H. Smith; York Rite Free Masonry, E. Sir Oliver Ong; Scottish Rite Free Masonry, Sir Knight Edward H. Wolfe.

## Don't Say "Autoed."

One frequently picks up a newspaper these days containing an item like this: "John Henry autoed to Smithville yesterday," probably meaning that the gentleman made the trip in an automobile. If these papers persist in abbreviation why not say "mobiled" instead of "autoed." Automobile simply means self-moving in English and it sounds just as well to say that John Henry moved to Smithville as that he selfed to Smithville. The former is not very proper but the latter is both improper and absurd.—Shelbyville Republican.

## A Famous Pitcher.

Jot Goar, now living at New Lisbon, was, a few years ago, one of the best base ball pitchers living. He has pitched for Cincinnati, Terre Haute and Indianapolis teams. While a member of the Cincinnati Reds his arm was injured so badly that he was forced to give up pitching. This year his arm is better than it has been since he left the Reds. He is said to be in condition again to pitch winning ball, and has been signed to pitch for New Castle this season.

## Marco Polo.

Those in charge of Paul Jones' beautiful Venetian creation, Marco Polo, are now busy arranging every detail for this tremendous production. The opening date for the edition de luxe of Marco Polo at the Zoological Garden in Cincinnati is set for July 17th.

Sigmond Lothar, the well known stage director, who for years created all of the Imri and Bollys Kiralfy productions has been engaged and will commence rehearsals on Wednesday of next week. Mons. George Mercier, the renowned Maitre de Ballet, has selected the ballet and is arranging them into groups which portrays the various subjects selected. Sometime since one of the directors of the Marco Polo Company has placed an order with a large breeder of blood horses to furnish him with all the animals required in the spectacle. The horses are now being drilled and on July 17th when the lights are turned on, on Marco Polo at the Zoological Garden, the public will gaze upon the most beautiful lot of animal actors ever used for theatrical purposes.

The campaign of 1840 had a dramatic and unexpected sequel. Thurlow Weed, before the meeting of the Whig convention sought out Webster and urged him to take second place on the ticket with Harrison, but the suggestion was rejected with scorn. An acceptance of Weed's advice would have made Webster President in little more than a year.

## ICE CREAM FESTIVAL AT GOWDY.

The young ladies class of the Ebenezer M. E. church, at Gowdy, will give an ice cream festival on the school grounds, Saturday afternoon and night, June 25th.

## A WONDERFUL INVENTION.

It is interesting to note that fortunes are frequently made by the invention of articles of minor importance. Many of the most popular devices are those designed to benefit the people and meet popular conditions, and one of the most interesting of these that has ever been invented is the Dr. White Electric Comb, patented Jan. 1, '99. These wonderful Combs positively cure dandruff, hair falling out, sick and nervous headaches, and when used with Dr. White's Electric Hair Brush are positively guaranteed to make straight hair curly in 25 days' time. Thousands of these electric combs have been sold in various cities of the Union, and the demand is constantly increasing. Our agents are rapidly becoming rich selling these combs. They positively sell on sight. Send for sample. Men's size 35c; ladies 50c—(half while we are introducing them) The Dr. White Electric Comb Co., Decatur, Ill.

## Luxury in Walking

Never mind what old fashioned people tell you;—Style and Comfort can live together in a pair of shoes! The "Dorothy Dodd" proves it.

They are the utmost height of style,  
They are Shoes of Genuine distinction.

The highest praise you can give a shoe is to say—

"It has the style of a 'Dorothy Dodd' "

Yet the "Dorothy Dodd" is the most comfortable shoe ever made. You long to walk for the pleasure of walking. It holds the foot firmly around the instep and supports the unsupported arch. You escape the "slouchy" gait which comes with some shoes. It gives a new poise to your body in walking. Your carriage is more light and graceful. Just try one pair. Sincerely yours,
